Professional Summary

Computer Science undergraduate at the University of Delhi with a strong foundation in programming, cybersecurity, cloud computing, and graphic design. Proven ability to translate technical knowledge into clear, engaging written and visual communication - from newsletters and outreach campaigns to event reports and promotional content. Adept at working in collaborative, deadline-driven environments and passionate about leveraging both technical expertise and creative flair in content-focused roles.

Education

Bachelor of Science (Hons.) in Computer Science

Indraprastha College for Women, University of Delhi

2023 – 2027

Gorakhpur, Uttar Pradesh

CBSE Secondary - Class X (Aggregate: 93%)

St. Joseph's School, Barhalganj

2020 – 2021

Gorakhpur, Uttar Pradesh

Professional Experience

Placement Vertical Member

CyberMeet Society, Indraprastha College for Women

Sep 2023 – May 2024

New Delhi, India

- Planned and executed placement seminars and career workshops, coordinating with industry professionals, faculty, and student teams to ensure seamless event delivery.
- Designed and deployed promotional campaigns - including emails, social media posts, and printed posters - significantly expanding event reach and registration.
- Authored post-event summary reports incorporating attendee feedback; recommendations were adopted in subsequent society events.
- Managed ongoing communication with 50+ students and cross-functional society members, ensuring alignment on timelines and deliverables.

Projects

Personal Portfolio Website - sanya052.github.io/sanya.github.io

2024 – Present

Tools: HTML, CSS, JavaScript · Deployed via GitHub Pages

- Designed and developed a full personal portfolio website from scratch, featuring sections for about, selected work, certifications, and contact - presented with a clean, typographically refined aesthetic.
- Integrated a live Canva design portfolio, showcasing social media content, newsletters, and visual communication projects.
- Deployed and maintained via GitHub Pages with version control, demonstrating practical knowledge of web development and CI/CD deployment workflows.
- Currently building out a data analysis and visualisation project in Python and Power BI, to be featured as a live project on the site.

Technical Skills

Programming

C++, Python, JavaScript, HTML, CSS

Data & Analytics

Microsoft Excel, Power BI, DAX, SQL (foundational)

Design & Media

Canva, Adobe XD (beginner), Figma (beginner)

Specialisations

Cybersecurity, Cloud Computing, Generative AI, Technical Writing, Content Strategy

Professional

Research Writing, Event Coordination, Team Collaboration, Attention to Detail

Languages

English (Fluent - Written & Verbal), Hindi (Native)

Certifications & Training

Cybersecurity for Everyone

- Gained foundational knowledge of cybersecurity threats, attack vectors, and defence mechanisms; developed skills to communicate security practices to diverse audiences.

Introduction to Generative AI

- Studied generative AI applications in content creation, evaluated leading tools, and examined ethical frameworks governing AI-generated media.

Introduction to Image Generation

- Explored AI-powered image generation techniques and their integration with written narratives for cohesive digital storytelling.

From Excel to Power BI

- Completed applied training in data transformation, DAX, and interactive dashboard design; built 3+ real-data dashboards for analytical storytelling.

Corporate Newsletter Design with Canva

- Designed 10+ branded newsletters and marketing collateral, applying layout composition, typography hierarchy, and colour theory principles in Canva.
